Subject: Microsoft Settlement

Dear Renata B. Hesse,

As a citizen of California, a computer programmer, and even as a Microsoft user, I find the proposed settlement in the Microsoft case to be a bad idea. I think it's incumbent upon the Federal Government to seek a more just disposition of the matter. Microsoft should not get off easy. You must push for greater concessions from Microsoft to ensure that computing innovation continues and that future generations will have greater options in the marketplace than they do now. We must not put all of our eggs in one basket.

Sincerely,

Mike Caetano
